Company of the Compan

dermany find all but ruined italy. Today demand for bulders shows how devastating the fire meance may be. There deries a mience unless properly one that the state of the control of the crying needs of today is the sarely of accommodation and reversity may be destroyed.

One of the crying needs of today is the sarely of accommodation and reversity of the state of the control of the crying needs of today is the sarely of accommodation and reversity of the state of the control of the crying needs of today is the sarely of accommodation and reversity of the state of the state of the control of the contr

clock."

J. uay, right around the
Fire is man's friend when properly handled. But failure to take adequate precautions must have no part in the use of fire.
For that way lies destruction of life and
property. Fire has been one of the most
potent agencies of man in his rise to clustisation, for discoverse w. potent agencies of man in his rise to civilization, for discovery of the importance of fire was one of the greatest events in human listory.

Fire unless bound by controls that do not fall can wipe out was tources of wealth and hazard that most precious thing of all,

Snow and Its Removal

Surow and its Removal

New North spiles after this week's more
blinared to few moves to the world.

Even the greatness of a flig world city
helps to intensity the problems facing such
a centry and even adds to the world of the
move clearance of cost, departments. Daso
parts and it is a problem stading the best
efforts of man and equipment to keep the
ways clear-or to prevent blockade or to
break it once it is established. But a city
problem is gredly intended.

The Plain Dealer of Cleveland, discussing
its question says that 'til would be prohibtilively unconformed for most 'clies to
prover with which to meet with most effectiveness the worst weather conditions.'
This fifth an answer to the question 'Why
aren't. clies better prepared to battle, the
Even so greats a city as New York' could

smow?"

Even so great a city as New York "could not possibly afford to have in dead storage the maximum amount of smoy removal apparatus required speedily and systematically to free its principal arteries from a smowfall of almost 26 inches—one which exceeded the fall in the "Sig Blizzard Year exceeded the fall in the "flig Bilszard Year of 1888." The best that can be expected of such a city as New York where the severity of whire's import varies from year to year is that the city be prepared to meet condi-cade or a blue moon. In the more horbern-ly cities where heavy falls of snow are a certainty almost every year, it is a different story. They must heavily invest in snow re-rowal equipment. In fact that is just what they are doing."

they are doing."
Reports show that American cities in 1947 spent a record-breaking amount of money in preparation for the battle against snow this winter. Montreal has earmarked 0,000 for snow clearance and the

spreading of sand and ashes.

While it is impossible to forecast what the winter will bring forth in snow storms in Ontario, heads of road departments have records of past years and may well

have a fairly accurate expectation of the smooth of snow which may come Herrathous three is the expectation of a certain amount of winders' precipitation though some years show much more snow than in others. As indicated in the Plain clites may expect a certain amount of more and are the state of the company of the comp

Now a Surplus of Sugar!
The sugar bowl of the western hemisphere is about to spill over.
The bowl is tobal. Only a sixth the size of Texas, the ribbon-like tropical island is the earthic greatest producer of glishening another super-crop, And sugar men wonder where and how the Cubian will sell it all.
Cubian wonder, too. It looks like their where and how the Cubian will sell it all.
Cubian wonder, too. It looks like their off 6 ar million took. That's a mountainous lot of usgar. It compares two-pounds-for-one with Cubia pre-war culpts, 112 double the production of giant Studies. The Soviet days low-grade "cur" (now which sugar is excluded.
For weeks anow, with her big new crop sp-

excluded.

For weeks now, with her big new crop approaching, Cuba's sugar prices have fallen like a barometer in the path of a hurricane. Earlier this year Cuba sold her sugar in the world market for a fat 8.50 cents a pound. Within the past two weeks she sold 30,000 tons to Britain for 3.80 cents a pound. The price has been cut in two — and then some. —Wall Street Journal.

There is nothing truer than physiognomy, taken in connection with man Dick

The first business of a philosopher is part with self-conceit.—Cicero.

Though the properties of the strong organized by the University of are not always seen in advance. Though the properties of the strong organized by the University of a properties of the strong the properties of the strong the strong that the properties of the strong the strong that the properties of the strong that the strong that the strong the strong that the s

Looking Forward

Already 1948 is in full stride with an in-eritance from the year 1947 and all pre-eding years and with the hopes and pray-es of mankind for a twelvementh of mark-

heritance from the year 1947 and all pre-ceding years and with the hopes and pray-ers of mankind for a twelvemonth of mark-en of progress and understanding among the end of the properties of the properties of the end of the properties of the properties of the far as the concervict on allows is concerned. But 1946 like youth is full of hope and energy and looks to the coming days and months to improve the world situation and to see the matings which have suffered to heavily as a result of war, beginning to better their claim.

Auto-Pilots for Small Planes

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1943, Edgar A. Guest)

OURS AND MINE

Of possessive pronouns two,
Ours is better far than mine,
Ours is goal of all we do.
Ours the purpose and design.
Ours the purpose and design.
Ours the storywa and the joys.
Ours the insughter and the song.
Mine, too of the home destroys.
Ours is right and mine is wrong.

Mine is single! plural ours,
Binding families into one.
Ours the garden and its flowers,
Ours the dream as time goes on.
Mine proclaims the selfish mind.
Gurs the hopes and prayers unite
Ours is steading, brive and kind.
Mine is wrong and ours is right.

How to keep the home intact?
Work as one and think and
Ours the aim of every act, Day by day and week by week.

Mine to separate highways leads.

Ours means willingness to share.

Mine too often discord breeds.

Mine is mean and ours is fair.

Says management of a strange sea mon-ster off the coast of North Carolina — by the captain of an American steamship who had a close-up view — is hardly to be ques-tioned. Imaginative persons have made the "sea serpent" a figure of fun, but the fact "he wears reports of varying de-"sea serpent" a figure of fun, but the fact is that over the years reports of varying de-grees of authenticity have indicated the presence in the seas of huge creatures un known to science. — Ottawa Journal

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest) HOLIDAY END

With the holy season done Now the creche we put away, And the little infant Son, For another Christmas Day. Stall and manger and the sheep Stall and manger and the sheep And the shepherds at the door,

For the children we shall keep Until Christmas comes once

Once again we strip the tree
Of the lights the children love
And the things they joyed to see,
And the star that shone above. one is every candy cane
With its stripes of red and white. ow the room seems bare again
That was radiant with delight.

It was so long years ago!
Lumpy-throated both were we
With that sadness parents know
As they strip the Christmas tree.
Now the task which I must face (She's no longer here to share) nd the room she used to grace Will be desolate and bare. And the

with handleraft production. And Britain's
achievements in a science and technology
will be shown by measured an exhibition
will be shown by measured an exhibition
during the last hundred years.
This display of Britain's achievements in
the fields of at, industry, science and archition and the science of the science of the science
from the field of the science of the science
from the science of 1881 was held in Byde
Fark in a specially built Crystal Palace and
from all over the world. It was organized from all over the world. It was organized at the suggestion of Prince Albert, Queen Victoria's Consort, and made a profit of

A New City

Ontario has a new city, Waterloo, which on January 1st was welcomed to the ranks of the cities of Ontario. Waterloo has been long known as a progressive centre and its assumption of city status was to be ex-

pecked.
Growth of this province as that of other
provinces moves swittly in a young country.
Though Onlatro is not so many genrations
old, it has become a province of many cities,
towns and villages and a prosperous countryside. Waterioo's becoming a city is a
sign of the growth, which everywhere is in
evidence.

loo began in the years before the battle of the famous name which it bes History in Waterloo district does not

back much beyond one hundred and fifty OFF THE RECOUD years and yet in that time this centre has grown steadly. The future is assumed in the light of its developments up to the present time.

Other cities in the province welcome the new city of Waterloo to their results.

Health Record

Though still a sparsely settled country, Canada has a record of outstanding achievement in the fields of health and

Newpapers in the course of their daily during a sparsey settled country, where the course of their daily during a sparsey settled country and series of reports of events and settled to the settled settled to the settled se So he went on sitting there, watching the meter, while two minutes of his life ticked away. — The Printed Word.

Britain's Contribution

Britain hair made an impressive contribution to the world's culture, edence, technology and industrial design. For magnification to the world's culture, edence, technology and industrial design. For magnification to the world's culture, edence, technology and industrial design. For magnification is considered to the property of the world is one which will give her forewer' the distinction of being a nation which has steady progressed in the art Now the United Kingdom is planning to in Moscon' desgatch, and in Bustrate, that two major exhibitions and the contribution to world civilization in the great national arts festival the contentary of the Exhibition of the Commil, recently stated that he and he content in the Commil, recently stated that he and to have been studying how best to mark the centenary of the Exhibition of the Commil is "being invited to make plans along with other hodies for a relatival of the arts in 1981.

The commil is "being invited to make plans along with other hodies for a relatival of the arts in 1981.

The commil is an along with the relative to the committee of industrial beging have been studying have been studying the world of the committee of industrial beging have been studying the study of the committee of the committee of industrial beging have been stated in the study of the committee of the committee of industrial beging have been stated that he was a state of the committee of industrial beging have been stated that the state of the family shapen to the makers and the state of the committee of industrial beging have been stated that the state of the family shapen to be moders, the busy of the committee of the family shapen to the maker and the state of the family shapen to the maker and the state of the family shapen to the state of the family shapen to the family shapen to the maker and the state of the family shapen to the state of the family shapen to the family shapen to the state of the family shapen to the state of the family shapen to the state

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1943, Edgar A. Guest)

PAST AND FUTURE

You were at your best today? Good, my son. It's a joy to hear you say

That you won.

Sweet the praises that were said,
But the sound of them has fied;
There's another task ahead

There's tomorrow drawing near, Keep in mind. And it's failure you must fear; For behind

And it's failure you must fear;
For behind
Every victor in a race
Is the one who'll take his place
If a faitering of pace
He can find.

Days of triumph long to last Were not meant. Never, never with the past Be content!

For regret it soon you may If your strength, they ever With the task of yesterday Had been spent.

Travel by Four Ways

Travel by Four Ways

Behre Oiga Anne Hyrey was two days
old the had travelled more ways flant
old the had travelled more ways flant
old per end of the people of the globe,
on their way to Canada passing through
Seuth Germany and the mother was rushed to a hospital in Amsterdam, Holland,
the hospital in Amsterdam, Holland,
take the payering and Infant were spling to
London in an ambulance plane chartered
by the Dutch Government and the International Bod Cross. From London they sailed
World. Our Pipe Apultainal for the New

World.

So much for modern transportation and at the same time the care and protection provided by the authorities and the Red Cross for these people from a displaced

persons' camp. Not many generations ago millions of people were born, lived, and died in one community, however small, in all parts of the Continent of Europe, such was no rare experience. But modern transportation has opened up the world, scarcely any part not having been affected by the influences of today's means of travel.

Sees Lengthened Span of Life Sees Lengtheneric ... span of Law People now 'living' are destined to see amaxing developments in an increasingly "regiorus and aproinaged seneitude." Dir. of the American Medical Association, said at Cieveland, stating his view that this is the dawn of a new day when the span of human life-will be extended rapidly to 100 years and when't those who are 70, 80 or 90 will still be youthful. This view is founded will still be youthful. This view is founded will suit be youthful. This view is founded on work of research with the aid of radio-active traces, elements termed isotopes which will lead, he says, to an understand-ing of the ternstating degenerative diseases of later years and discover the way to con-

trol them.

The atomic age has given man wonderful new precision instruments and man is coming to know more and more about the steps by which the body uses food, air and the like. "We can attach radioactive isotopes like-little neon lights to a sandwich and trace it through the digestive tract to the blood stream. We can see what is used, how it is used and what is cast off, "he said. Man is now beginning to make use of the greatest tool since the development of the microscope and can see dugs, slanduler gasaces wou since the development of the microscope and can see drugs, glandular preparations finking their way through the body and can study the building up of the blood and the process nutrition as it has never been studied.

never been studied.

Scientists can make use of this frest new knowledge, Dr. Borts says, to get at acpoer, to study the individual cell and its expect, to study the individual cell and its knowledge man cair use this instrument to propect, the body, to extend its usefulness for years and add to the quality and richmest of living. He says, "We shall not be a remaining of living, if he says," We shall not be a whose usefulness and productiveness will be extended to the ninth and teath decades. Edison, Ford, Titlan, Cicko, Stradiery says," of their finate work in their later years."

varius dia some us user dexpanding knowledge.

Today is an age of expanding knowledge.
This decade of all decades of history has been the first to catch a glimpse of what the atomic age will be. Philosophers and acientists of all ages looked forward to such a time as now appears before man.

Meeting Weather's Changes

Winter has not the fears it used to have not so many years ago. Though people live more and more from day to day in this age not so many years sgo. Though people live more and more from day to day in this sgo when there are so many ways of securing when there are so many ways of securing. There was a time, when whiter driving was not looked upon as nearly as important as summer driving. That was in the era when there were fewer cits and when roads were of the old skyls mheadam, even the days of the state of the sta

there's the livewise annularly cleared roads and walks. There is a greater certainty today of the open road even in winter. Thus was not long ago when a heavy snow storm block-today of the store of the control of the

Is the World Too Super?

Is the World Too Super?

Dr. Walter Grophis probably had tongue slightly in chees when he suggested in an adjustly in chee when he suggested in an attack hatcher could be shaped by architecture. The opposite probably is more accurate. It was not the mastive Reich Charleston and the super countries in the super countries

SUITED TO THE SEASON

As people adjust their clothing according to the climate and the season, so motorists are advised to accommodate their practices as drivers to the conditions of the roads day after day in the winter season especially, juit as they do when pavements are wet in the summertime. One of the adjustments would be a feet to adjust the condition of the condition of the summertime to the sufficient of the summer time. ments must be to fit into the visibility scheme as it varies from time to time dur-

BETTER BREAKFASTS

Coal may bring home the bacon for Brit-ons. The crucial place held by coal in cur-rent Danish-British trade talks indicates inew the importance of the victory scored by Britain with revival of her mining in-

by Britain with revival of her mining in-dustry.

The upsurge in pit production, whether attributable to nationalisation or a basic betterment of morale, is not only strength-ening Britain's hand in her life-and-death export battle, but promises to in breakfasts of her people.— Herald.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1943, Edgar A. Guest) OVERTIME

Had I ever told my dad: "I do more than I get paid for." He'd have smiled and said to me: "That's what growing boys are That is how they prove their worth; how they show they have ambi-

That's the surest way I know to the better paid position."

Had I ever told my dad: "Overtime I'm

often staying,
And for overtime the boss never seems
to think of paying,"
He'd have smiled and said to me: "Just

forget what now he pays you. You'll be paid for overtime when the day has come to raise you."

Boys are wanted still today who'll for-

set wanted still tooky won't forget the quitting minute;
Who can see the post ahead and will
do their best to win it;
Boys who'll do the extra bit when they
know that it is needed.
They'll be paid for overtime when
they're men who have succeeded.

LOOKING BACKWARDS GLEANINGS FROM OUR FYLES OF BY-GONE YEARS.

90 VEARS AGO Jan. 7th., 1938

30 YEARS AGO Jan. 7th., 1918

The municipal elections are being held today. Aldermen were elected by acclamation and the only contest is between ex- Ald. Dr. Platt and ex. Ald. W. A. Woodley for the office of

W. A. Woodley for the office of Mayor.
Mayor

40 YEARS AGO Jan. 7th., 1968

Jas. 7th. 1989
In the municipal electrical yes-terday ax. Aid. Allain Aidres de-fessed ex. Aid. Loren Marsh by 29 votes. The aldermen elected are here given in the order of their setanding at the policy. Per-man, Hagerman, Green, Peter-sion and Blaschum. Aiter speeches had been made in the was escorted bome by the Odd-fellows Band and many sup-porters. The high temperature of to-day was two degrees above that, of yesterday which was 39 de-grees. Low today was 36 against 34 of yesterday. The Rev, W. D. P. Wilson and Mrs. Wilson are visiting friends Ottawa. Mr. J. O. Herity is spending Mr. J. O. Herity is spending a few days in Ottawa. Miss Helen Reich bas returned home from Toronto where she spent the holidays. Mr. Donald Res of Moose Jaw, Sask, is visiting his starter, Mrs. Mr. P. Armatrong, Albert Street.
Mr. P. Hayes. Catherine St., Will leave shortly on a trip to Sal Lake City and Catifornia.

fellows Band and many sup-porters.
Dr. Bowlby, Reeve of Tweed Village, was in town lookey.
Mr. and Mrs. Moreler Bird, Stirling, have left for Vancou-ver, B.C., where they will spend three months. Mr. R: W. Adams has left for Ottawa where he will attend a meeting of the Canadian Rail-way Accident Insurance Com-pany.

50 YEARS AGO.

Jan. 7th., 1838

Miss Walker, Matron of the
D. & D. Institute entertained a
number of friends last even-

pumber of friends last even-ing.
Mrs. A. Swanson and son of Thurlow township, left today to visit friends at Nansimo. B. C. Mr. and Mrs. A. N. Reid of this city recently visited Mr. and Mrs. W. H. Davis, near Tweed, v. Mr. and Mrs. John Stout of Ottawa, formerly of Belleville, are spending a few days in town. Mr. E. D. O'Flynn of Madoc was in town today.

POLICE SEIZE THY CARGO FOR PALESTINE

ment or thousands of pounds of TNT and gwn and shell manufactur-ing machinery abourd the American export freighter Executor at a Jersey City pier, F.B.I. agents and police raided a large warehouse in the Bronx, New York, after tracing the origin of the alignment and found hundred of additional cases containing explosives, shells, and machilhery for making arms and ammunition. The raid on the gunmaking machinery consigned to Palestine and labelled "industrial machinery" was accidentally discovered by customs inspectors when one of the cases being loaded abourd the "Executor" fell out of a cargo net and broke open, revealing the secret contents. Photo shows one of the raiding officers examining one of the boxes that was found in the warehouse, ready for shipment to Palestins. Top insert, an officer holds some of the loaded bullets beside a machine which was used is load and finish production of shells.

PRICES and

RESTRICTIONS THIS COMPANY is now taking orders from its cus-tensors for delivery up to April 30th, 1948, at the same prices as were established last October, some time after price ceilings and the subsidy on raw cottons were ended.

cotton wope ended.

There has been an increase of 4½ cents per pound in the raw cotton market since our present prices were first established. A corresponding increase in our prices weald be justified, but we have decided not to make this change. Any increase might be looked upon as an attempt to take advantage of the recently imposed restrictions on imports.

an recently anguest contrictions on imports.

In cases where the public is now being asked to pay nore money over the counter for articles made from Canadian cotton yars and fabrio, it is largely because the price rise made accessary when the subsidy as raw cotton was cancelled last September is now reigning to show at the retail level. We believe that

primary outton producers, secondary manufacturers and distribution of cotton goods in Canada are not in any way seeking to, exploit the Government's import restrictions at the expense of the consumer.

Civic Interest

Civic Interest

Municipal elections have been held over
Ontario beginning with the first day of
places it was aimed to attract more and
more people to the polls to have their annual say in local public staffars.
The results in many places have been
very good, more voters easting their ballois
That is what democracy wants, a full
supression of views in local government.
Too much reference cannot be made to
this theme. Harping on this subject will
dobtless bring more and more voters year
to be more than the subject of the places of the subject of the places of the subject will
in helping to alect their councils or their
in helping to olect their councils or their
in helping to olect their councils or their
in helping to elect their councils or their
in helping to elect their councils or their
in helping to show the size display a want of
interest when it should be a matter of conern to know who will be the voters' reprecern to know who will be the voters' repre-sentatives in the civic bodies for the comins

term. In many places the total of voters exer-cising the franchise has not been what it ought to be. In fairness to candidates and to the voters own interests there should be almost a full vote. That likely will not be possible except under unusual circum-

But the fuller the vote the more a coun-cil or board can feel confident that it has

cil or board can feel confident that it has the alers support of the people. In democratic countries the voting is enhancered. It was not so in Germany, which under tyrauny and aggression knew nothing of freedom, Nast inhibiting being but a mackery under, the threat of the Nast people can remember the Nast elections before the World War Two. These had not the faintest link with freedom, for under Nast rule only Nasts could "win" an election—the way of tyrauny, which he do he dotted and collapse of Germany is the undeltered freedom of voting in elections in the free countries with true democratic girlachipts at work.

me elections in the tree countries with true democratic principles at work. In the municipal elections in many parts of Onlario there has been the sign of greater participation in the voting. Yearly these elections come and they have much to do with the way of life in their com-

Spirited campaigns are the very breath of municipal life.

THE ONTARIO NITELLIGENCES It is a good thing to have seen so much interest in municipal elections the part

In Fine Form

In Fine Form

Now that former Prime Minister Winston. Churchill who also bean in Morocco is "in fine the prime of the world everywhere. He has made a name for hin-cell in the list of the fore popping of the world everywhere. He has made a name for hin-cell in the prime of the prime of the prime of the prime of the former prime of the prime o

'A Meeting With History'

bear a countenance more princely than they are wont, for it is the temper of the highest hearts, like the paim tree, to strive most upward when it is most burdened.— Str Philip Sidney.

JUST FOLKS By EDGAR A. GUEST (Copyright, 1943, Edgar A. Guest)

ONCE IN A WHILE .

I think, looking back, I have done as
I should a Once in a while.
I'd say of myself, I have done what I

could Once in a while. I've stopped on my way just to visit a friend; A few flowers I've even remembered to

send, And letters I might have put off, I have

penned Once in a while.

I've learned what it meant to have friends standing by

Once in a while.

I've mastered the thought that too busy was I

Once in a while.

I know what such thoughtfulness means to the old;

means to the old;

How laughter rewards every jest that is told.

For I've tried them, but only (the truth to unfold)

Once in a while. But it isn't enough merely helpful

to be Once in a while; To share in the need that so plainly

I see
Once in a while.
And I'd like to be known as the sort of

a man Who graciously, willingly does all he

To hearten his fellows much oftener than
Once in a while.

Session Objects To Way Election

LOOKING BACKWARDS GLEANINGS FROM OUR FYLES OF BY-GONE YEARS.

20 YEARS AGO Jan. 8th., 1928

Jan. 8th. 1923

Mr. and Mrs. E. F. Dickens will leave Feb. 1st, for California where they will spend six weeks.

Mr. Jack Belsie has returned Mr. Jack Belsie has returned to the property of Mrs. M. H. Doyle, Grove ouver-Wayne Wilbur, local young ridlo enthurist, tuned in on helf a dozen stations in the Southern States early Sunday morning. Excellent receptions were encountered from Sacra-mento, Los Angeles and Holly-

wood.

Mr. and Mrs. Whitney of Ex-eter, Ontario, and children, spent the holidays here at the home of Mr. C. Redmonds, Ann Street.

20 YEARS AGO Jan. 8th .. 1918

Jan. 8th., 1918

In the municipal elections yesterday Dr. Platt defeated Mr. W. A. Woodley by 219 voles. 1Dr. Platt received 795 votes and 'Mr. Woodley 575 votes and 'Mr. Woodley 575 votes. The bylaw to grain a free pew Albert College buildings was carried with a majority of and 242 votes against the bylaw.

and has your against use typing.

Mr. John B. Brintnell of this wiley has left for Florida where he will spend pureral months.

The Rev. Faller McNell, store of the staff of Rt. Mary's Calcular, Kingston, has been spically the staff of Rt. Mary's Calcular, Kingston Father McNell (Kingston Father McNell) was instructor at Regiopolis Col-

FAVOUR HOT BREAKFASTS of WHOLE-GRAIN MORNING

DEPRESSIONS SAID CAUSE OF POOR SCHOLASTIC SHOWINGS -

And exhaustive survey by prominent medical men and dictitions above that most poor scholastic showings are due to morning depressions resulting from breakfasts deficient in minerals and vitamins. These depre could be climinated by the in cereals at breakfast.

DOCTORS AGREE

Medical research has pro that among the many foods which supply the essential Vitamin B: (thiamins), whole-grain cereals are on of the richest sources.

STAPLE DIET

Welfare workers are unanimous in their choice of whole-grain occash as part of a belanced and steple dict. They recommend them highly where pupils show a lack of interest in their studies or show a tende

Breakfast Can be Bright If mouth-watering, putty-flavoured good

means anything to your family, you must serve Vita-B soon. With cream and brown sugar, Vita-B is one of those rare treats that brighten any breakfast. And remember, Vita-B cooks in 3-minutes.

ADMISSION 50c. RESERVED SEATS 75c SEATS ON SALE AT BILL COOK'S CEGAR STORE

OFF THE SPORTS BLOCK

Tuesday night, they sent the Saints, conquerors of the Pete Heekey Club home weeping on the short end of the score. The sound played hang-up hockey, sentiated offensive and is a sustained effentive plus a great defensive effort, came from behind to win in the latter part of the third period. And, if it had not have been for the great work of Udy "Specs" Udail, great goalle veteran that he is, the score would have been

DORIS FARRELL

A Production Clerk in the AO Belleville Plant

Through the above picture we'd like you to meet Doris Farrell,

arrough use soon-picture wat has you to meet Doru Farrell, one of the basiest, most conceptic employees in the Relieville plants of American Opical Company Canada Linited.

First, she keeps an accurate record of iess production, checking it against the order book. Then, when this duty is completed, she inspects half-finished lenses to ascertain whether they most our rigid

But that isn't all. She is president of the AO Service and Social Clinb .. a reporter on the staff of the AO plant paper .. and a bowler in the plant bowling league. Furthermore, she swims, Gances and somehow finds time to attend the movies.

Doris is typical of AO employees who enjoy their work and their obbles. By living such a full life they help build a happy industrial family which is the best assurance for a plant to go forward.

At all times AO people work together as a team - co-op in the production of first-quality lenses prescribed by professional men to give their patients one of the most valuable of physical as-

Have are some reasons why many individ-uals who own sound investment securities are unwittingly losing money right now:

ti. Certain Dominion of Canada bonds now have a relatively short period to fun to the reference of the state of the consequently, for demand by institutions which require short term bonds. For this reason these bonds command a price which does not justify an individual retaining the security. In some cases investor actually loss money by retaining them.

Individuals frequently miss seeing a notice of redemption of so security they own and learn to their sorrow a few months later interest has ceased to accroe on the redemption date.

From time to time some securities sell for a price above their intrinsic value and others sell below, making a change desirable.

Economic, political and other factors often affect the potential value of a security and justify the sale or purchase of the security before this effect is generally appreciated.

A Long-Term Project

A Long-Term Project
More than two builderds frilled "glaciologists" have declacted their time and energy to a task which cannot be completed during their lifetimes. Or for many generations theretare, in all probability.
Their proper is the determining by the their proper is the determining by the whether or not the world is heading for a new los age.

The preddent of the British Glaciological Society more than suspects that it is, but has no higher of striving to see this surpidious eleminically proven:
which come load most of our globe will do that. — Montreal Herald.

A Sad Story

A Sad Story
All those who live animals will be puilling
for the recovery of that ugly pooch at the
fesser County Human Society. It is a story
which touches the heart of all who believe
that a man't be striend in this do, homely
to one wanted her, the mongrel youp finally
to one wanted her, the mongrel youp finally
toun what would have proved a happy
home. But, before she could be taken to it,
the was stricted with distemper.
Human nature is a pretty fine thing
when such widespread interest can be
animal. — Windoor Star.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest)

WINTER MEMORY

In the hophood that was mine,
Oh so many years ago,
Total of the many years ago,
Total of the many years ago,
On the roadways white with mon.
If all if alien turough the night,
With the morning I could hear
With the rapture of delight
Tinkling sleigh bells, far and near,

Winter-time in years gone by
East a music all its own.
Siedge and cutter drawing nigh
Sweelly made their coming known.
Until spring the sanow would stay.
On the highways where it fell
And the crisp air, night and day,
Bore the sound of many a bell.

Now into the roaring drains, As it falls, the snow is thrown, And there's little that remains Of the winters I have known. Boys are wakened at the morn-Not with tinking music sweet, But the sound of motor horn and the traffic of the street.

Growth and progress have their cost.
There's a price to pay, for else.
Many lovely things are lost
For the greatness mortals prise.
If the snow should fall today.
It will quickly disappear,
And the sound of sleigh bells gay
Children now will never hear.

This is about the time to hear such ideas a guesses about what the winter will be the as a whole. Storms have attracted most identified in a date but someone was sure to once along and give an idea as to what the reather, and the winter together had plan-

weather and the winter together had plan-ned and were planning.

Here it is, it comes not from a Canadian centre but from St. Louis, where the bears' movements have come to the notice of the soo director, George F. Vierheller. His ver-dict after watching their performance to date is that the winter is to be mild. Whether their problet instincts speak for Canada as well as for Missouri remains to

Canada as were as to solve severe as to cold.

The winter has been since winter started to come quite late in the old year, an appreciable fail of snow. That is as it was last year, when the first of the year plied up ample snow to more than satisfy all well-wishers of rugged winter.

Describe the from a Channella Control to the section before the theory of the control of the section before the theory of the control of the section of the

THE ONTABIO INTELLIGENCES.

TH

warmt a complete success, our it amount stand a better chance now, when the com-petition from the United States canned ruti juices is reduced. In any case, Cana-dian housewires will likely welcome any-thing this winter that can be put on the table for a reasonable price: — Comwall Standard-Freeholder.

COAL

The increasing abortage of fuel oil throughout the world indicates that the demand on coal is fuel will be greater than coal companies both in Canada and Great Britain, to increase output and improve methods of operation are timely and should assure a protitable return, bedies making available a larger labor matter than ever before. — Sharthout Bescon Herald.

GOOD CITIZENSHIP is a lot of little things

THINK OF THE PEOPLE WHO ARE WAITING

It is a great temptation to sit and chat hungry and tired—people who would for a while over a cup of coffee when you have faished a medil nyour description to restaurant. But it in 'quite fair when people are waiting—people who waiting—people are cut.—and its 'Good Gittlemath' too.

You can help this public service effort. Make a note of some of the little things which, in your opinion, contribute to Good Citisenship.

economy is capable of supporting a mb-stantially larger population han it sup-stantially larger population han it sup-tinate there is this governmental machinery apablio describing a gractify increased pop-ulation. It agrees with the Federal Gov-tering the supering of the supering supering the stantinking distances and interactional in-security, Canadians must recognise the longer when a small population attempts to preserve for bleed paid of the supering the top the supering supering supering the top the supering supering supering the property of the supering supering supering the for general work. One of the problem which is apparent is the question of transportation. The organ-forproperty of the supering supering

to be worth #3.5 a ton. In this quest it is important that six of the barges which sank have been located. The job of recovery is a winter's work and a mechanical claw will bring the valued ore from the sunker cart and load it on vessels.

Over in Impland rocally there was rowing under the direction of a clerk of works appropriately named Mr. Money, The find was made on a bomb-damaged site just off Whilehall when workmen started to clear up the remains of a concrete strong room. Mr. Money told the story "We werrent suspecting anything as no-body had sent in a claim for the contents of the strong room—and I was annaed when sody mas sent in a cash for the confering of the strong room — and I was amazed when my workmen called me over and made me look into the hole which they had been drilling through the roof. I could see some-thing wrapped in very old newspaper — I put my arm through the hole and picked care a great lighter with the I rounddistate. I toning wrapped in very due newspaper ever a small silver milk igt, immediately I had the hole covered with a stone slab and went to report to my chief. We returned together, made the hole bigger and thoroughly inspected our treasure. We found a couply inspected our treasure. We found a break the stone of the slab with the

Keturning Canadians
Last year approximately 9,000 Canadians
returned to this country from the United
States, and in the first 11 months of 1947
an almost equal number of Americans—
8,838 in all — came here in earch of new
homes and opportunities.
The total may full a few thousands short
of the Canadian emigration to the republic
tin the next were

of the Canadian emigration to the republic in the past year. There always will be a certain amount of emigration from Canada to the United emigration from Canada to the United sales campaign to drive Canadians there, but also for the reason that distant fields have a fure that the resilies and alvertur-changes of the control canadians are currently the control of the answer to the throughtless propagarida about "greater opportunities" across the about "greater opportunities" across the border. Figures on the exodus are only a small part of the story. — Windsor Star.

Flavor of Eggs

Chicken eggs taste best. You have the experts' word for it. Dr. Hugh B. Cott of the Cambridge soology museum, has been directing a three-man taster panel, investigating the taste of eggs. He has now announced the

Treasure

Hidden treasure's very mention is stimulating. It is one of the motives of plays and stories in all the ages and it never loses its appeal.

Bernin of treasure the name of Capitain Cook rises with all the suggestive state of Capitain Cook rises with all the suggestive state of Capitain Cook rises with all the suggestive state of Capitain Cook rises with all the suggestive state of Spanish coins of princises value being of Spanish coins of princises value being diden long sug other treasures—One of these has to do with gold and copper or these has to do with gold and copper or these has to do with gold and copper or a modern treasure. But has to be supported to the contract of the con

A new high-speed knife carves meat in alices four millionths of an inch thick. In-tended for medical research, it should be equally useful for the family of nine trying to beat prices, notes Stratford Beacon-Herald.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1943, Edgar A. Guest)

THE PURPOSE

A wife and children and a home where

A wife and children and a home where they can be at ease, This land of ours is filled with men whose hearts are given to these. They're standing at some lathe or forge or drill or mightly press, Their growing boys to educate, their little girls to dress.

For music lessons, week by wetk, to teach a child to play; for all that every father hopes; they work from day to day; For doctor's care when illness comes; in church the family pew; It these they spend their strength to have whatever tasy they do.

They'll'tell you in a quiet mood at home beside the fire.
The things that make for peace of mind are all that they require.
They're honest men, and gentle men;
God-fearing men and true.
The love of home is strong in them, whatever work they do.

LOOKING BACKWARDS GLEANINGS FROM OUR FYLES OF BY-GONE YEARS.

TO VEARS AGO

Mr. and Mrs. William Harden and Mr. and Mrs. Walter Symons are spending a few days in Toronto. The members of the office staff of the Canadian Industrial Alcohol Company held an en-joyable party at St. Agres fanor last evening. Mr. E. Curry of Bancroft is

risiting friends in town.

Mr. George Balley, reeve of Mr. George Balley, reeve of Rawdon township and Mrs. Balley were recent guests of Mr. and Mrs. Mark Tucker, Trent Road. Mr. James Lumbus of To-ronto is renewing acquain-ances in town. Mr. J. Cronin of Napanee spent yesterday here with friends.

THE HAMILTON

MARINE CHRONOMETER

. The Most Highly Precise

It is a MARINE CHRONOMETER made by The Hamilton Watch Company during the war —an exact duplicate of the thousands of similar instruments with which practically every fight-ing ship of our Navy was equipped.

It is accurate because it had to be a sec-ond's variation would mean a haif mile naviga-tional error and this might prevent a rendezvous at sea, or prevent a task force from hitting its

For two centuries the marine chronometer has represented the highest peak of the watchmaking crult. Before the war, such instruments were only made abroad, but, when our Navy needed them in greater quantilies than had were been made before, the Hamilton Watch Company—darmed makers of the Watch of Railroad Accuracy—was given the assignment.

In two short years, Hamilton sequired the chronometer skills of two centuries — and to them added patented features of their own, plus modern American precision manufacturing methods which resulted in the world's finest chron-

Fixing for a Storm

While forcesting the weather is becoming more and more scientific, a writer in the New York Times who knows the country and all the weather signs tells in language which is rich'j in its content of practical knowledge when a storm is shaping up. This writer says:

"Countrymen resucet the gadwets and

This writer says:

"Countymen respect the gadgets and
"Countymen respect the gadgets and
"Countymen graphs of scientists who plot
the complicated weather maps. Farmers
conscientiously read the reports in the
paper and listen to the volces on the wireless, although they wish the prognesticators would dispense with so many qualifying statements. A man who has lived on the
land for half a century does not need to for half a century does not need to

land for half a century does not need to hedge with reputation—swing phrases. He knows for certain it is fixing for a storm. "For two days there has been a blue sky with gun-metal gray haze along the western horison. For two nights the stars have been bright. The haze around the wanting moon has been thicker over the top segment than below it. For two evenings a breeze has freshened at dusk and then side

breeze his freshened at dusk and then died away by the time the countryman west out for his 9 o'clock look at the livestock." Now in the third morning gray clouds are climbing from the northesst. Whiter works are climbing from the northesst. Whiter uplands. Up and down the valley road the snote from farmhouse chimneys spirish high and then diffus slowly away toward the southwest. Through forenoon hours the quietness deepen. The thin sound of chopping comes from a neighbot's woodlet. The spirit of the property of the southern and the southern and the southern and the spirit of the spi spaced, sweet tones of the village bell float slowly by. The poliginant whistic of the train in the valley carries clearly as the long-stance of the control of the control of the upland heights. Hour's by hour the silence thickens; hour by hour the gray shade on the countryade deepens. At soon, when he countrymen, stands for a minute by the elf door. Hushed expectancy broods over the Earth, It is faing for a storm." err and What this chairen for almora, when the What this chairen for almora, when the

What this student of atmosphere and weather effects gains through his protound knowledge of nature by his own observation is something so valuable that every-none will be justified in feeling a sense of innocent envy of one who can come to know nature so well, because his reading of the signs is so true to nature that he has no doubt about what the days ahead, will bring forth. That is an activement worth

There are thousands of farmers not nec There are thousands of farmers not nec-such observers as the Times editor who wrote the above, and weatherwise and rich in nature lore. Out of this intimacy with the things of life, such a man and such men must feel the sense of harmony ex-isting between themselves and the lovely world in which they dwell.

Canada-Builders

The average family, and most of them ed on their own farms, spun their own of and linen into yarns and wove their or gotts or knitted their own socks and titens. They grew the sheep, sheared the

wood they give their own finz, pulled it by OFF THE RECORD hand, retited it in the dewe of the fall mornings, and eventually spun their own lines, fibres for wearing.

They made their own candles from tailow cut all their wood for heating and cooking, made a good each of their own in the pand made as good each of their own in by hand maple sape. They will be their own the barn formershed it with finis on the barn for the contract of the contr

Travelling Scholarships

Each year beginning September 1948 the best apprentice in Britain's Royal Ord-nance Factories and Government research establishments will be awarded a scholarestablishments will be awarded a scholar-ship worth \$1,000 by the Ministry of Sup-ply. In addition a twelve-month tour of in-dustry both in Britain and abroad will be arranged. The overseas tour includes visits to Canada, Switzerland and Sweden, where factory methods, production and organiza-tion will be studied. In addition to the grant of \$1,000 all fares and fees incurred during tion will be student. In administ or leg game of \$1,000, all fares and fees incurred during the tour will be paid by the Ministry. Arrangements are being made for apprentices' work to be supervised by local universities or technical colleges.

Law for Rainmakers

For a long time, even before Mark Twain,, the complaint has been that while every-one talks about the weather no one does

one talks about it.

In the past year or so this aphorism has had a hole punched in it by gentlemen in aeroplanes. A bagful or so of dry ice dumped into a nearby cloud and the result is a

The trouble with this form of rainmaking is that accuracy is not guaranteed. Last is that accuracy is not guarantéed. Last summer, for example, a group of farmers bired an aviator to go aloft to sprinkle day tee in the hope of getting a shower on their parched fields. The shower came all right tit didn't fall on their parched fields. On the contrary, it just about ruined an Old Home Week clotheration in, a town miles away—at least so goes the skery, and the state of the shown that the state of rain making without a permit—Winnipeg Tribune.

WAR ON MOTHS

Moth damage in Britain amounts to four million dollars a year. A new working party is to be set up to gather scientific knowl-edge and advise housewives and producers.

Religion belongs to the place of business as well as to the church.—Beecher.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest)

"SOME FINE DAY"

This the mother used to say:
"I'll go travelling some fine day.
Some fine day I'll sew no more,
Cease to dust and sweep the floor;
Get myself those pretty things,
Diamond brooch and brilliant rings; Sit and dream the hours away, Not right now, but some fine day."

Some fine day!" and there we were, Taking all our needs to he "Go away a week or two!"
Answer: "What would father do? Answer: What would take the You know very well that he Looks for every care to me.

There are visits I will pay—
Not just now, but some fine day!"

"Some fine day" that never came. Year by year the cause the same. Always putting pleasure by, Care we needed to supply. Now, too late, and she has gone, Trusting us to carry on, But recalling what she'd say: We'll go to her, "some fine day!"

BATEMAN MOTORS

FARM MACHINERY DEPARTMENT 11 MOIRA STREET WEST BELLEVILLE PHONE 2851

Did you ever know that hogs thrive on coal? Ross Bennett, of Pueblo, Callid, owner of the hogs being if of the reby Miss Mark Massarotti, says hat coal-ind-ord-only the property of the property of the coal as month and 100 pounds of rock sall. Be gist be coal at 55 a ton, which is also cheaper than corn or grain. Because the coal keeps the hogs in lop condition, any Bennett, they derive more good from what they eat and thus require much less corn. They seem to be enjoying the aboved 10 coal denated by Mass Massarotti here.

TREATED SOVIET MARSHAL

\$1,000,000 WAR SURPLUS FIRE

Flames roar through the old Bell Alternit Corporation plant in Buffalo, N.Y., as a four-alarm fire of undetermined origin ests up a large quantity of surplus war materials. Note one was injured in the fight against the blaze, which was finally brought under control by a force of 29 fire companies. Loss is placed at more than \$1,000,000.

BONUS BUILT ... THE AMAZING RESULT OF AN ENGINEER-ING PRINCIPLE THAT ASSURES WIDER USE, LONGER UFE . . . AND FORD TRUCKS HAVE IT!

HERE'S WHY FORD BONUS* BUILT CONSTRUCTION GIVES YOU WIDER TRUCK USE-LONGER TRUCK LIFE.

Ford Trucks are built not just strong enough . . . but Bones Built for extra strength in every vital part.

This extra strength provides WORK RESERVES that pay off in two important ways:

First, they permit you to handle loads beyond the normal calls of duty. This means Ford Bonus Built Trucks have a greater range of use. They are not confined to doing a single, specific job.

Second, these same work reserves permit Ford Trucks to relax on the job ... to do their jobs easier, with less strain and less weat. Thus Ford Trucks hast longer because they work easier.

Proof? Over the past thirty years, more Ferd Trucks sold in Canada than any other make.

*BONUS: "Lementaling pieces in addition to inher to

Leading auto makers switch to new kind of tire

Call Super-Cushion by Goodyear greatest tire advance in 15 years

Bigger, softer tire runs on only 24 pounds of air... gives incredibly smoother ride, amazing new comfort, safety and mileage.

EVERY day more and more new 1948 cars are rolling off the production lines equip-ped with a new blad of tire. Auto engineers who tested this new the the Super-Cushion by Goodyear . . said: "We want this tree for our new cars soul?" Here's why:

First tire to lick lateral shock

After the tests these engineers were openly excited. "It really absorbs lateral shock," they said. "Not ire were did it satisfactorily before? Springs and conventional tires absorb up-and-down abook. But until Goodwar produced the Sprec-Cushion, lateral (crosswise) shock was one of the few things yet to be licked in the modern care. Fillowy Super-Cushions said up crosswise jable.

To you, the motorist, this means a sensationally new huxury ride . . . far less fatigue . . . less wear and tear on your car from engine to body bolts.

Super-Cushions blot out shocks, help prevent rattles, lengthen the life of your car.

o The Super-Cushion is an altogether new KIND of tire. Leading our makers found it made an autonishing improvement in motor car operation. Then they said:

An incredibly softer rideeasier. safer car handling

The Super-Cushion is a bigger; softer tire. It holds more air, but runs on only 24 pounds of air pressure., instead of the usual 28 to 32. It gives a softer ride, a numbelievably smoother ride... not only on bed reads but even on good

Super-Cushions are safergive more mileage

Super-cushions literally flow along the road. You get safer steering, easier handling . . . especially on curves. Since they're softer, they "roll with the punch," are harder to cut or bruise, America Mounts assistant assistant section.

Super-Cushioù Tires are BIGGER!

spi-oblinial lifes all bittach miles its Spi-obling its 5.50 replaced by 6.40 6.00 replaced by 7.10 6.23 replaced by 7.40 7.50 replaced by 8.20 7.50 replaced by 8.20

Super-Cushions on new cars your new car may have Super-Cushions. If so you are already enjoying an incredibly finer ride. If you have yet to order your new car take a tip . . insist on Super-Cushions . . . a new kind of tire for a new kind of ride.

IGNOBANT

Should they ask me when I go What about this world I know; How are fashioned all the things Aeroplanes with silver wings, Motor cars and radios, Motor cars and radios,
Sets for television shows,
Sadly I shall have to say:
I have used them day by day,
But how they were shaped and turned,
I confess I never learned.

Though I lived a lifetime through, All of things I ever know Was they bettered life for me; Never how they came to be. Never now they came to be.

Never why a button pressed
Turned on power my car possess
Lit the room or rang a bell,
Did I learn enough to tell;
Took for granted that it would.

Why, I never understood.

All the work of cogs and gears. Enyled men of skill who knew How machines were made to do Tasks to save the strength of men; Heard them, watched them, now s then,

Wishing I, from day to day, Could be useful as are they.

m's you think you've secrificed to

A Lens Blocker in the AO Belleville Plant

The manufacture of bifocal lenses in the Belleville plant of American Optical Company Cinaska Limited represents a particularity distinction operation because of their complexity. Among the skilled confidence of the plant of t

For leveral reasons we are gird that Bill is a member of the AO industrial family. First, be is a veteran of World War II, a season in the Pierry that made victory possible. The fine record in the work for us. Then, too, Bill is deeply interested in com-pany activities. For example, he is optain of one of our piant low-ling teams, captain of the plant notiball team and a member of the AO Services and Social Club.

In addition to his liking and aptitude for sports, Bill enjoys swing music, collecting "jive" records that are "in the groove," as the saying goes.

Bill is typical of AO employees who work together as a team, who believe their work contributes to the betterment of society ... who are proud to be associated with a company that constantly endeavors to promote the welfare of its comployees.

THE BEST FOR LESS

The Bay of Quinte Fire Insurance Company provides the best in protection for farm properties, at less premium, and the rates have not increased though your income and property values have greatly increased.

It is necessary for prudent farm operators to review their fire insurance protection, and bring it in line.

A minister got a cassock and surplice.
A mainister got a cassock and surplice.
A racing commentator and a stipendiary

A racing commentator and as supenmary steward put in for inforcial asked for a .303 fife to shoot crocodies. Insurance agents and time payment col-lectors have saked for bleycles. A ventriloquist, asked for heads and bodies of dolls.

THE WORLD WE LIVE IN The world we live in is the place We touch with gentleness and grace, Not that which chart and atlas show, But that where heart and mind will go.

The world we live in holds our friends; Is large, as our concern extends
The place we hold, the task we do;
Those now we know; those/once

Tis wide or narrow as we share The heartaches others have to bear; Can hear a cry of anguish made And moved by pity wish to aid.

Not of that world at all are we, Though near us tibes in need may be, If unconcerned we hear them cry And with indifference pass them by.

LOOKING BACKWARDS GLEANINGS FROM OUR FYLES OF BY-GONE/YEARS.

PROTECT YOUR HOME

If you are a home owner you probably have to deal with a mortgage. If you should die before the mortgage is paid off, your dependents might have a struggle to make the payhents. A Great-West Life Mortgage Repayment Policy will guarantee full payment of the morigage in event of death. Let us give you full particulars, without obligating you in any way.

The Killing Frost

The Killing Frost
The typic climate may be a factor in
the rapid growth and swift decline of ideological parties in South America.
For example, it seems probable that the
prevailing heat and moisture encouraged
the growth of the Communist Party in
Famil, helping it to overrun all revis of
frost, a chilling frost, as Shakespeare
would put it.
Whether the withering frost of government mandate has reached the roots of

whether the wintering frost of govern-ment mandate has reached the roots of the Brazilian growth, or merely frosted the leaves, is a question for U. S. exponents of continental unity to consider. — Montreal Gazette.

No nobler feeling than this, of admira-tion for one higher than himself, dwells in the breast of man. It is to this hour and at all hours the vivifying influence in man's life. — Carlyle.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1943, Edgar A. Guest) REMINISCING

Time was I used to walk away
When wearied by the old folks' chatter
About some joy of yesterday.
To me such memories didn't matter.

I'd often heard the tales they told, And I was living in the present.

I didn't care for pictures old

Or bygone days, however pleasant.

I wondered then how they could find So much delight in times departed And keep them constantly in mind, For I was young and merry-hearted.

But now my youth has slipped away. I'm drawing close to life's Decembe And I have many a yesterday Aglow with joys that I remember.

HOUSEHOLD FF FINANCE

Notice to the Citizens of Belleville

On the 29th, of November, 1947; as a result of a sworn affidavit by L. E. McLean, Vice-Freat and General Manager of the Corbin Lock Company, presented to the Supreme Court of Onterio, an interiocutory (temperary) injunction was issued against memburs, and officials of Local 533, UE-CIO and the District Staff of the UE-CIO stating that "they are restrained until 3rd, day of her, 1947, and until any motion which may on that day be made to continue this injunction shall here been disposed of, from interfering with or preventing the access of the plaintiff's officers, employade, servants, agents and contractors to the plaintiff's (Cophin Lock) property and from committing acts of damage to the said property.

At the same time a claim for damages amounting to \$600,000 was taken out against Ross Russell, UE-CIO Director of Organization; Neville Hamblin, District Representativa; Jefferson Hurley, UE Publicity Representative; John Whalen, District Representative, and Carl Wannamaker and Fred Day, members of the UE-CIO, who were employees of the Corbin Lock Company.

"The Plaintiff's (Corbin Lock) claim is against the defendants and each of

"I, For \$100,000 damages for injuries inflicted upon the plaintiff, its but and property through acts of violence and by causing, promoting and furthering an il-legal strike and illegal picketing at and doing structural injury to the plaintiff's plant at Belleville, Ontario."

Legal Counsel for the UE-CIO now inform us that the first injunction against officials and members of the UE-CIO was disallowed by the courts. The injunction preventing Ross Russell, UE-CIO Director of Organization, from speaking at plant gate meetings of the Corbin Lock Company, was withdrawn by the co

sel also inform us that suit for damages strainet the six above-named ials and members of the Union has been withdrawn AT THE REQUEST OF THE CORBIN LOCK COMPANY. THE CORBIN LOCK COMPANY HAS AGREED TO PAY THE COSTS SUFFERED BY THE UE-CIO AS A RESULT OF THIS COURT AC-

It is the opinion of the UE-CIO that the Corbin Lock Company used legal tactics to folios certain of its employees to return to work, to break the strike voted for and called by its amployees, and to prevent them from organizing into a union of their own choice. The UE-CIO ves that this manoeurre confused certain workers into returning to work without realizing what would be the result of their actions.

It is easy through a GENUINE union contract that workers can win wage increases and enjoy the protection against management that the workers of Belleville-Sargent, Yale and Towne and Peterborough Lock have won through the UE-CI O.

Through the contract segotiated by Director of Organization, Ross Russell, and District Rapresentatife Neville Hamblin of the UE-CIO, the workers of Belleville Sargent have won 11c an hour increase for women and 10c an hour for men, 6 paid statutory holidays, 1 week's vacation after 1 year, 2 weeks after 5, and 3 weeks paid vacation after 20 years. A wage increase will be negotiated again in July.

In 1946 and 1947 the workers of Yale and Towns won average wage incre through the UE of 15 cents an hour and will, be in negotiations for a further wage increase in March. In Paterhorough Lock in the same period workers won average wage increases of 32 cents an hour.

The UE-CIO will continue to support ALL the workers of Corbin Lock in their fight for a GENUINE union contract with higher wages and better working conditions. The UE-CIO will not be sidetracked in its determination to assist the workers of Corbin to organize by the past or current attitude of management.

JACK MONK

A Pioneer Lens Grinder in the AO Belleville Plant

The quality of a fine ophthalmic lens is dependent in part on the skill displayed in grinding its curves. That's why American Option Company Canada Limited entirets the operation only to expect let grinders like Jack Monk who is shown above testing the curvatur of lenses ground on the machine at the left.

Exceptional care and "know-hew" are needed to grind lenses that meet AO's high standards. As a natter of fact, the quality of AO lenses produced in Belleville is so well recognized that many professional men in Canada and other parts of the world prescribe them for visual correction in preference to other makes of lenses. We couldn't ask for a finer testimonial than take

A veteran of World War I, Jack Monk served his country well in the Imperial Army. For his outstanding contribution to victory he received the Victory, General Service and 1914-15 Star medals, the recognition of a grateful country.

First employed by AO in 1877, Jack is one of our pioneer em-ployees, a man who has never failed to meet the empossibilities of his important work. Naturally, he is a member of the Ten and Fitteen Choi, an organization created to boors AO people with zone mappingment records. He is also a member of the AO Service and footal Choi. His bubbles include he mansher of the AO Service and pipers a part in making history, joe enjoys reading about H.

Jack Monk's record speaks for Itself. He is one of the many reasons why we have faith in our employees... why we have de-veloped sound, human labor relations so that the company and its employees can live, work and prosper together.

American Optical

HUGE ORDERS FOR SHIPBUILDING

The gresses volume of orders ever recorded, estimated at three and a half million tons, was in the hands of United Kingdom shipbuilders at the close of 1947. Its value is placed at \$1,20,000,000. One third will go for export. Production figures in Britain are equalling cherling, more than a million tons having been alunched and the same amount completed during and the same amount completed during the year.

JUST FOLKS By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest)

POSTAL CARDS

Now the postal cards arrive
From the red hybicus land,
Where the palm trees line the drive
And the rich folk throng the sand.

Oh, I almost shed a tear
When the mail comes in to me
With that: "Wish that you were here,
"Lookin, lazy, at the sea"."

Here the land is white with snow And the sky above is drear.
Here the raging north winds blow.
But the postal cards appear.
And the southern cross I see,
From the land of lovely bloom,
Is the one they send to me
Just to indicate "our room."

Comes the postman to the door
With those presty cards, and I
Glimpse the sea and golden shore
Where the sportive salitish fly,
And I think while showelling snow:
If the money I could spare,
To those friends I'd surely go
Who are within I, were there Who are wishing I were there.

Johnny feels so

JOHNNY doesn't know why he is able to carry so many of the shiny milk pails. "Aluminum" means nothing to him now. It will, when he grows up. For this modern metal is already doing much to make farm

This light metal that won't rust is being used for all kinds of farm implements and equipment to reduce labour and last longer - for such things as milk cans, garage doors,

flashing, roofing, siding, ventilators.

It is a "natural" for all sorts of uses about the dairy - so light, so easy to clean and, as aluminum paint, for inside and outside use, it is equivalent to putting on a shield of wear and weather resisting metal.

In the kitchen, too, it saves endless labour as cooking utensils and housekeeping appliances. Yes, aluminum will make life on the farm a lot easier. Johnny's parents have discovered its many outstanding advantages.

All bests over moteriols or a imported; Boszille from British Guisses. Crypille from Greekler increase from the residence of the company of t

"As clear as if you were here!

THROUGH THE YEARS, neither time; effort nor expen IMPOURTHE TEARS, nature time, enort nor expense has been spared to give you clearer, better telephone service. Indeed, to day's telephones are actually four times as clear and free from noise as those of not so many years ago.

You get more service, too. We're completing unfilled orders—

Tou get more service, too. We re compoung unanted orders— just as fast as we can get the necessary equipment. And as more telephones are added, it means more people whom you can call — more service, clearer service, and always at the lowest cai — more service, ceazer service, and always at the lowest possible cost. Altogether, telephone mers today get greater value than ever before.

Fire's Destructiveness

Fine's Destructiveness:
The year bir records the death of 117
person who lost their lives through fire
while the injuried-were nearly three times
as many, namely 318. In the last three
months the foll was 35 decid and 85 injuriedmon and 11 children. This is a grim story
which brings to mind the absolute need of
the secretary of every precaution against
the ravages of the monther, fire, and the
necessary and the monther of the grid the
three of the monther of the property
with 121 (10.53 and in the three of the
three of these three of the property
with 121 (10.53 and in the three of the
tires of those thus surfied out. Other asperts filled the prieft, the broten hearts
and courses of lives changed forever by
these dire recuts.

pects Bennes, and course of lives changed internal changes of the changed internal changes of the change of the ch

servine 3. Alogo increase, a total of \$2.50
in a time when there's great need in a time when the search of the search of

der of 1947.

when view of the report for the ster is the classification of cause. By time everyone realizes that the largemeter of fires is due to smoking, igh the loss, \$332,263, is sof the largement of the classification, fires from smoking in the classification, fires from smoking ough the loss, \$332,961, is not the largi-ist the classification, first from smotting anding blind in line in the losses. Bica-lary of the larging and the larging and the res with a total loss of \$549,933. There are 415 fires in surrodded buildings, one is building rodded before 1922 and three those rodded, since 1922. Naturally over sand furnaces runk second with 431 res withis subset, coals and open first had to be a surrow of the larging and the larging and the their smottly. Of first from marks on ir credit. Of fires from sparks on there were 28, but of these buildings I wooden shingles and three had ated roofs. In 731 fires causes were

smifled as unknown.

These long lists of loss indicate some-ning of the strain on the wealth of the covince from this source of destruction.

Two Ways

Attention is drawn to the fact that two oral forces are at work for bringing an id to the troubles of India and Pakistan. only forces are at work for bringing an account of the control of

sweeping the subcontinent in response to OFF THE I

the two Dominions were free to ignore one as well as the other.

"But the horsel pressure carried by the Mankama has reinfraced the moral pressure carried by the Council." From two discretions and by two matthods. In the handless of the council of the theory of the council of the Times. "A great personality and a great idea acted in harmony."

mony."

The world hopes that these two influences at work will have the desired end. The New York writer's conclusion is that "there is a moral force in this troubled world, and in East and West, by the common striving in strangely different patterns, it manifests itself."

France and Reich Revival

France and Keich Keiwal
Russian denunciation of British-Usi
occupation some merging has no fastification. The Russians have only themselves to thank for the program.

By co-operating in administration of the
occupied Reich, as agreed, and in the framing of a German pance, they would have
made the stem over so bittery resembled unoccupied Reich, as agring of a German per

ing of a German poinc, they would have made the step now so blitterly resented unnecessary.

French, protects fall in a different, exisFrench contests to the ecocomic welfare of Western Europe as a whole,
French colpections to any more suggesting
the renaissance of a strong German state
are understandable.

Many times bitten from that quarter,
France dreads the danger with which it is

TRAIN FOR R. I. N. IN BRITAIN

To enable the Government of India to set up their own naval training establish-ment, officers and ratings from the Royal Indian Navy are to be trained in Britain. Negotiatiohs are also in progress for the purchase by the Government of India of three British destroyers.

To live is not to live for one's self alone; let us help one another.—Menander.

JUST FOLKS

By EDGAR A. GUEST (Copyright, 1943, Edgar A. Gu

LEAP YEAR

This is leap year, and so Girls are free to propose— A fact that I know Everyone of them knows. Maiden fair, it's your turn His intentions to find. Pop, the question and learn What he has on his mind

Has he let the months pass

Without letting you know? 'Neath his feet has the grass Been permitted to grow?

If you've thought him to be
The most backward of men,
Say what never may he.

It is leap year again.

Oh, glorious maid,

To some slow poke inclined, Who to tell is afraid What he has on his mind, Tis the one year in four Line and hook you may cast.

Dilly-dally no more; You may land him at last.

LOOKING BACKWARDS

GLEANINGS FROM OUR FYLES OF BY-GONE YEARS.

About vesty-five members of Forms 2-C and 2-B had a sleigh drive last evening and visited the home of Mr. Wall-bridge on Hur's Island. An endoyable time was passed and clock this morning.

The los at the curling rink is excellent and the curlers are having a rearin' time.

Mr. Harry L. Walker, William reet, was in Campbelliord and

Soper Cashiola was bigger, softer find provided better traction than ordinary tires—your Physpothy until handle with selfy protor data for the property of the propert

With Plymouth Safety, Rim Wheels it is almost im-possible for a tire to test or pall off the rim is the event of a blowout. Super Coukhon tires with their 25% more air volume at only 24 pounds maximum preasure provide a "notive" air and ecoher running which leasess the channes of a blowout. The combina-tion of these pillow-like tires with Plymouth Safety-Rim Wheels and Plymouth's ectionic weight-dustria-bation give you a new fined of vide-y a smoother risk, a sufer risk that you've even had before.

Remember, Safety-Rim, Wheels and Super Cushior tires are STANDARD equipment on all Plymouth models. Plymouth is the car in the lowest-priced field that gives you the most quality for your money.

WHEN IT COMES TO KIOS-YOU CAN'T WIN, ON ONE SIDE IT'S LIKE THIS

From now on, month by month

YOUR WAR SAVINGS CERTIFICATES can be cashed!

THE payoff on War Savings Certificates has begun. If you are among the thrifty people who own War Savings Certificates, NOW is the time to look them over, sort them out by months and as they fall due, endorse them and mail to Ottawa as described on the back of each Certificate. A cheque for the full face value of each Certificate will be sent to you in due course.

But here is another suggestion...

Have the Royal Bank of Canada do all this "office work" and sorting for you. Save yourself the bother of searching out the right pieces of paper each month, endorsing them and mailing them off to Ottawa.

Here's what you do: Bring all your War Savings Cercificates which you have at home or in your safe deposit box, to your nearest Royal Bank Branch, We will

your nearest Royal Beach Branch. We will be used to be used to be used for safekeeping. As the Certificates fell due, we will cash them for you and deposit the fall face value (which includes interest) in the savings account of the registered owner, automatically. If you have no account with an use will open one for you for this purpose.

The cost of this service, including safe-keeping until your Certificates mature, is low, as the following table shows.

TAKE ADVANTAGE OF THIS LABOUR-SAVING SERVICE. IT IS AVAILABLE TO YOU AT ANY BRANCH OF THE ROYAL BANK OF CANADA

"An important part of my diet ever since my first bottle has been Crown Brand Corn Syrup. Now, that may be all right for a little character like myself, but let me till you, these grown-ups sure are locky what with Mom serving them Crown Bund Corn Syrup with so many of their diabes. And also uses it in her baking, too, as a sweetenes.

I can hardly wait until I'm old enough to have some hot waffles or pancakes amothered with delicious Crown Brand. If it's as good as it is in my cereal—

For years doctors have recom-mended the use of Crown Brand Com Syrup as a seriefactory carbo bydrate acting as a milk modifier for bottle-fed infants.

Imperial Life policyholders tell How I measure my Life **Assurance Company**

"By the service it gives," says the shilled werker.

A very important point, all of a will agree. And the list Airmed Report
the measure of the Company's service. During 1947 The Importal Life yaid to
pulspholicer and beneficiaries \$8.035,000. Over the past fifty years

"modit payments of \$172,000,000 have been made.

TTTT" "By the safety it offers," any wives and mothers.

It means not jut mercy when sheel has a parameter of the family? If assurance is of first importance.

It means not jut mercy when sheels, has a parameter jut of the parameter in the parameter of the parameter is a parameter of the parame

"By the type of man who calls on me," any the professional man.

Quillied, competent service is a tradition of Imperial Life co-workers, now
sumbring more than 1300, dyness and office state underp a theorety torse of
training. Many representatives hold the degree of Charterel Life Underwriter (Cal. U.).

One handed and resurg-law members have been with the Campary a quarter-century

""By the progress the Company is making," asyoffice workers. An ill-time record of 80,555,000 of assersance was purchased through The Imperial Life 1047. Poliphodiser take prich in the fact that the seasones one in force in their Company—4656,279,000—in 154 times the total that existed in the whole of Canada fast all companies at the time. The Imperial Life was founded 30 years appl

Would you like to learn more about "the measurement" of The Imperial Life?

The figures quoted were taken from the Annual Report of the Company for 1947. A copy of the corpor will be furnished on request.

New Youses.

Reforestation that gripped the minds of many of the popular that are anything nate and the many of the popular that area and in the riversit district there is a deep inderest in of spirana for the finite of the month of the popular that this program for the finiture of the woods that of the country listens in the palm of pylamas for every two made land and forests of the country listens; palm of pylamas for every two made land and forests of the country listens; palm of pylamas for every two made land country and the land of the forests. The Hatting County Counted was should have been produced to the past award the only land country of the past award the only land the land that country and the past award the only land the land that the country has 50s acres is apart under reforestation and Englings has make has been include, manufacturers vacants. This year there will be set out 60, on the country is after the land the country is a strict of the value to the country is after to the value of reforestation.

In comment the part of the value of the country is after to the value of reforesting the government and the rural municipalities being stread by the pro-

Otheres, mostly pine, in these new-pur-chased sections, the property of the con-chased sections, the control of the con-terest of old and young in reforestation. The country is alert to the value of refor-esting, the government and the rural pro-gress which has been made, Various country work along this line is being accomplished being to the control of the control of the con-trol of the subjects being stugith. Scho-bascon arrivall be taken on a field try and will see on the ground what reforestation object. It is of interest to the con-

means.
It is of interest to know that five schools in Hastings county will be selected where the scheme will be tried.
Reforestation is the effort of today to re-

and forest economics.

Perpetuation of forests and reforestation form one of the most important interests

form one of the most important interests of the present age.

Size concepts age and the present age age and the present age are reported to be returning to popularity after a generation in which they have occupied a place among the relies of the pre-film age, spice and the pre-film age, spice among the relies of the pre-film age, spice among the relies of the pre-film age, spice among the pre-film age and the pr

People of the late nineties had a great numbers of pictures to choose. It was en-tertainment of real value too for there tercaliment of real value too for there were very elaborate sets of pictures, showing the depth and richness of detail of the stersoptician view, there being two placed side by side in order to reveal depth and

distance. "These views were entertaining and edu-cational. Their cost was very low and they could be studied again and again by every one of the family and even of the neigh-bor's sid visitors for the stereoscopie so in the nineties "was standard equipment" in the parlor."

parior."

ones who remimber the staroscope remember the "magic" lantern which a long some time before the modern of the motion picture. Lanterns have gone out though they have been modern with sketche light instead of the part of the second in the part of th

Mr. Truman's Balcony Tradition dies hard among our neigh bors of the United States .When Presiden

hore of the United States. When Freedom Truman proposed the other day that a balcony should be built outside his study in the White Stone there was immediate of the and some people. Bitter and Musselm to the White States of the said some people. Bitter and Musselm to the said some people built of the people from balconies; Buckinghaim Falace in the said some people but a president of the people from balconies; Buckinghaim Falace that the said some people but a president of the United States, another monarch or service of the United States, another monarch or service and said from the people some people show them.

the scheme will be tried.

Reforestation is the effort of today to restore the balance of nature on the land.

This indexes in the factor of the forests that the state of the state of the forest than the state of the forest tendence of the forest part of the

Over others, more or less; Power to gladden and to grieve And our best or worst to leave, Since wherever we may go We receive as we bestow.

By a cáreless, bitter word
Rage in others can be stirred.
This from day to day we learn
Smile, and surely smiles return.
Fleasant be, and we shall meet
Fleasant folks on every street.

This the power of one and all.
Every action, great or small,
Always answered is in kind.
Bo susceptive is the mind
And so easily upset
That it meets as it is met.

Wise and strong of will are they Who can calm and patient stay; Meeting anger, and refuse Anger in reply to use; Letting none so powerful be as to shame them needlessly.

Higher Wages Means **Better Business**

and a Better Belleville!.

The Ontario Labor Relations Board has ordered a vote at the American Optical Company to determine whether or not the employees want the United Electrical, Radio and Machine Workers, (UE-CIO) to act as their collective bargaining agent.

As businessmen and trade unionists of Belleville and District we too have a stake in this election.

in 1946 and 1947 the membership of the UE-CIO in Ontario and Quebec won \$15,000,000 in wage increases. To the average member of the UE-CIO this has meant \$625.00 a year in increased wages. The annual rate of earnings of some UE-CIO members if up as much as \$800.00 over what it was before the UE-CIO wage campaigns. This is made up of increases in hourly rates and pay for statutory holidays, but does not include such gains as extra vacation pay and higher shift bonuses, which increase earnings still further.

Belleville Benefits by \$50,000 a Year

Fifty thousand dollars a year has been added to the community income by the contract negotiated at Believille-Sargent and Co. Ltd., by UE-CIO Director of Organization Ross Russell and UE-CIO District Representative Neville Hamblin and the elected bargaining committee of the workers.

Workers in Believille-Sargent won increases of 11c an hour for won 10c an hour for men, with 6 paid statutory holidays, one week's vacation with pay after one year, 2 weeks with pay after 5 years and 3 weeks' vacation with pay after 20 years.

Total gains in wage increases and paid holidays means at least \$300.00 b year more in the pocket of each Belleville-Sar-gent worker.

Marchants and businessmen, in fact, the whole community, will benefit by appreximately \$50,000 a year increase in the city's income.

American Optical Workers Should Vote For a Higher Standard of Living

Wage increases, paid helidays and vacations will raise the standard of living of American Optical workers and materially benefit our community. These workers, our customers and friends, used and deserve extra purchasing power in their pockets. Wage increases similar to those already won in Believille-Sargent will give the community a greater income.

THAT IS WHY WE SUPPORT THE UE-CIO ORGANIZING CAMPAIGN IN BELLEVILLE AND URGE ALL AMERICAN OFFICAL WORKERS TO VOTE FOR THE UE IN THE ELECTION OF JANUARY 27th., 1948.

WILLIS JACKSON, Manager

1948 AUTOMOBILE INSURANCE

RATES REVISED

Insurance Companies writing the business of Automobile insur-ance have found it secessary to make changes in their 3948 automobile rates. The Public Liability, Property Danage and Collision steep being revised upward in Kural Districts, it being found that too great a difference in rates was being charged between City and Rural Dis-tricts, Rarel drivers being frequently involved in accidents in Cities, While Inferrited Public Liability and Property Danage rates as we-wline Inferrited collision rate Sura bean survivally increased. The Fire and Their rates alone a downward term in all interfaces.

INCREASED RATES are general in all territories and are due to the ever increasing number of claims and core of repairs, and the over-arial licrases will be superhor from \$5' to 205'. In many cases this brings rates back to the 1939 level, considerable reductions harrised to the superhor from the property of the period of general reductions have been considered to the superhor of the period of the period of the period of the period of the following members:

Youths'

Just right for school or lounging around. Serviceable checked all-wool with white plying on sleeves and across back. Button front closing, two stash pockets and tully lined. Colours: red or blue. Sizes 3 only. Reg. 1000. Special, each. 9,95

By EDGAR A. GUEST (Copyright, 1948, Edgar A. Guest WINTER SCENE

A pheasant strides across the snow.
A blue jay on a cedar tree
Starts scolding angrily, as though
No right to food he finds has he.

Garbed like a gaudy grenadier On sentry duty stands the jay, Commanding with a voice severe His fellow bird to move awaw.

I watch them quarrel as they feed And note it as a sorry fact. Even the birds are touched with greed, And oft like human beings act.

1947 - Another Record Year

THROUGH is 73 years the London Life has constantly, recognized its responsibility to render Canadisins as much assistance as possible in providing security for their families and themselves.

From this standpoint, 1947 was the greatest year in the Company's history, The \$207,069,000 of life insurance purchases arranged through our field more exceeded the amount for any pervious years, and today nearly con-ievement of all life insurance bought in Canada is issued by the Lendon Life. The life insurance in force also increased by the exceed amount of \$146,061,000, and now searchs at \$1,429,582,000. The London Life family

of policyholders numbers over 800,000, and because of the diversified nature of the Company's service this group is made up of people in all

The assets of the Company increased during the year by \$22,340,000 and now total \$259,554,000. Over \$92% of this amount is required to meet the Company's liabilities to its policyholders, and there remain Simplian Funds of \$20,456,000 as an assertance of sefty and stability. Maintenance of a strong financial position in the interests of complete security to policyholders and their beneficiaries bas aiways been of paramount concern to the London Life.

The combination of financial strength, low not cost to policyholders, and service by selected and skilled representatives accounts for the London Life's continued progress and its present outstanding position.

'A capy of the 1947 Annual Report will be mailed on request.

Scrapping of Ships

Scrapping of Ships

Time in these days of advancing developments in science and engineering does not leave fighting ships a very long life.

The other day there was an annuncement that four capital ships of the British Nary will be scrapped, the 'quen Elizabeth, the Vallant, Netson and Rodney.

Those who served on these ships, on the other three in the World War II will feel as ensue of loss when these vessels are gone. In modern war battleships have performed a great many hazardous miseitous and agreat many hazardous miseitous and cured in their history make them very dear to the men of the nary.

These ships' names will be bestowed on mev capital ships when and II there is re-west in the ships' names will be bestowed on we capital ships when and II there is re-west in the ships' names will be bestowed on the process the ships' names will be bestowed in the present Prime Minister Churchill has protected the step of scrapping the ships but the present Prime Minister, Mr. Attice, has stated that acrapping was deemed the best method of disposal.

To me the meanest flower that blows can

To me the meanest flower that blows can give thoughts that do often lie too deep for tears.—Wordsworth.

Had I my way with such affairs,
The cards had longer stayed on view,
But women with their household cares
Resent the dusting they must do.

They'd leave of it no single trace For those who call to look upon.

Again the mantel shelf is clear, of enlightment.

Since man must do as women say, also project was approved at the second And all that came my heart to cheer the second specific project was approved at the second and all that came my heart to cheer the second specific project was approved at the second specific project project was approved at the second specific project was approved at the second specific project pr

Still Hold Hopes

Still Hold Hopes
Probably no tragedy coming out of the
war is greater than the uncertainty of parenia about their sons, who were reported
missing and, finally, dead, although there
feeling of not knowing is something those
parents will carry to their own graves.
Once again it is brought home in the
publication of a picture of "Lucky" a
salice who is an anneals witchin, now a pasalice who is an anneals witchin, mow a pocane from Vancouver and one from Toronto,
both think he may be their son, missing in

one from Vancouver and one from Toronto, both think he may be their son, missing in

both think he may be their son, missing in the war.
Wishful thinking, surely, but proof that mothers of missing boys can't give up hoping, even when officially there is no hope. For hope syrings eternal in the hu-man breast. So long as these mothers live they will hope, no matter how often the hope is crushed.— Windsor Star.

The most delicate, the most sensible all pleasures, consists in promoting the pleasure of others. — Bruyere.

Planet Mars Will Seem to Plow Through Moon

By H. DENT HODGSON anadian Press Staff Writer) Ottawa, Jan. 27 —(CP)— anadians who find the lanet fars plowing through the moon bout midnight innight shouldn't ecome alarmed—it'll just be an accultation.

become alarmed—it'il just be an occultation.
This is not really a manifestation of the occult, as the name night suggest. Actually, it means that the planet passes behind the moon and emerges later from the other side, if you happen to be watching from the right spot.
From other spots, the planet will seem to "just miss" the moon.

will seem to "fast miss" the Dominion observatory officials not particularly interested in the same today which parts of Canada over long with the parts of Canada of the Canada of the

Allow Space on Roads

Allow Space. on, Roads

It lakes from three to eleven times as much distance to stop a car when parents are side and sippery. So motorists are side and sippery, so motorists are side of the car shaed. It is always to stage that of adrich, home of experience on the highways and roads, "Take your time wintertime." moderate must be careful but the higyele rider who is advised that the rules to easily moderate must be careful but the higyele rider, who is advised that the rules for each winter driving of automobiles apply to bleyele riding too. Avoid success stops and short turns. Be especially the success of the size of the s

Don't crowd up on the other whicles.

Don't crowd up on the other whicles,

Then there are the men who go to and
from work in the wintertime. That can be
very risky. A few tips from the Ontario
Department of Highways, should not be
amiss. Here they are:

The man who walks should take it easy.

then alighting. Whatever the mode of rayel, he should be careful and get there and back home safely.

And a word for chains:

And a word for chains:

"Suppery road, speedy driven to the posts originate. Some steely, and a word for chains:

"Suppery road, speedy driven to the posts originate, and who know earth's than poetry in that, perhaps. But if y even more true that motorists should use chains note and smov. They can yellow braking.

Chains may not be a curveall, but they can often mean the difference between life and death on bad roads.

strongs the basis of one of the second property of the control of the property of the control of

the case of Nietszehe, a doctrine of the struggle for power on the part of a class of predetatians in the case of Communities Both rejected the moral values based on and authorized, the individual into the mass, which, in furn, became merely the naw material for the 'social engineering' or self-appointed Fusherer,' and the writer adds, "the final purpose of the sub-plication or control of the masses turned out where soon, the man purpose of the sub-jection or control of the masses turned out to be not the improvement of the lot of the masses but the self-aggrandisement of the new rulers. The problems they thus created still await solution."

World Touring Centre

Two important world organizations ave, by joint agreement, chosen London the most suitable home for an internathe most suitable home for an interna-nal motor-touring centre. The decision the conference specially called to discuss is question was announced recently, degates from North American and Euroan countries attended the meetings as presentatives of the International Tourrepresentatives of the International Tour-Alliance and the International Automobile Pederation. A Central Bureau is being opened in Belgrave Equare as the single world-agency representing all nations and embracing every aspect of motor-touring and sport. It will represent 20 million counts throughout the world and its ob-ject is to rationalise and co-ordinate limited misconal motor-touring of all types.

Teaching How to Shop

very new "full" added to school activi-is bound to find opposition from those maintain that the "three R's" should remained the beall, and end-all of the education. So there will probably

duanty characteristics constants assessing the look for.

Maybe the New York City educators have hit upon an innovation that will become a "must" for school curricula.—

Owen Sound Sun-Times.

THIS IS AN **EMERGENCY** ...let's treat it

as such!

CANADA is heavily "in the red" in present trading with the U.S. dollar area, in our total trade with the world we are in a good position but not in that part which is done with the U.S. dollar countries. Other countries with whom we do business cannot pay us in full, either in eash or in goods, for the things they buy from us.

This situation is made more serious than ever before because so many our regular austomers, have not recovered from the war. It may me time yet before they get on their feet sufficiently to help put things right. Meantime, we must find ways and means of balancing our own books d reducing our U.S. dollar deficit.

There are two things we can do at the moment zaz cut down unnecessary uses from the U.S. dollar area and increase our production of goods that can be sold to those countries to balance accounts, it's an emergency and should be treated as such:

TO KEEP OUR INDUSTRIES HUMMING ... OUR LIVING STANDARD HIGH

WE CAN PAY FOR THESE THINGS IF WE CURTAIL OUR SPENDING ON IMPORTED NON-ESSENTIALS OR TRIMMINGS ... AT LEAST FOR AWHILE

YOU AS A CANADIAN CAN HELP

- Do not order goods by mail from other countries::..de not buy goods to bring home when you travel outside Canada. See also item 2.

BEYOND SELF-SERVICE

These things are true, And true will stay: There's more to do Than work for pay.

There's more to be Than rich and wise, And more to see Than open lies.

Even the smart May fail to find The aching heart, The troubled mind

Above the fee
That all pursue
There's more to be
And more to do.

How Your

Child May Be

MOIKA W.A.

BABY SITTER IS LEFT WITH BABY

Mrs. Dick King, Vancouver, stenographer, smiles at the bouncing four-months-old baby left with he't a week ago by his parents, who were "going-standing" and who have not returned to claim the child. After \$0 inours, and trying to trace the parents. The young couple who turned the baby over to Mrs. King said his name is Dale Michael Goodall. Mrs. King would like to keep Dale Rightael and abe may if the parents fall to claim him. Welfare workers say the mother has been found.

Third Schedule

Among the first foals reported this year was this sturdy son of a King Pater winner and outstanding Canadian-bred, Archworth. The colt was foaled on the Agincurt stock farm of W. H. Wright, Earrier breefer. This youngster is out of the producer of winners, Rose Mahnar. The second foal of 1946 on the farm was a filly by Gambaird, son of Challenger II and out of the matron, Lest We Forget.

It is very clear to all what Gandhile
is the service of the service of the service of the service
in his nather hand and to undersing. Revulsion of feeling at the deed
it by nations of the way. peace in his native land and to understanding. Revulsion of feeling at the deed is felt by nations of the West. It may be that Gandhi's influence will be felt more keenly and that out of this tragic event may come the beace and understanding for which he strove.

Severe Weather

Severe Weather
In spite of probabilities the weather can
bewilder and surprise all people. The
forecasting what is in store for the people
day, after day and season after season but
yet there are the variables and the details
which make the weather always interesttage and a subject of discussion and
the make the weather always interesttage and a subject of discussion and
tight the universe it is full of possibilities.
For myriads of hime men and women have
whiched the progress of the seasons even
from the dawn of the Ice Ages because man
is sort of partner of the, weather. The
home of the rest is the subject of the
discregarity of the weather but must take all its
inities and forecasis to his heart and intellect.

ch a sudden dip as that of Thursday ght and Friday morning following forests had that something which gives risendless discussions. Though it was exceed, the reality of it was much of a

CLOCKS AND CALENDARS

The clock each minute ticks away, Some calendars, one page a day; From others, when a single one is thrown saids, a month has gone. The last of these to disappear Proclaims we're lived another year.

The steadfast clock maintains its pace, with no expression on its face.
The seconds into minutes grow,
The sixtleth bids an hour to go.
But calendars in different way
Record the passing of a day.

Some calendars are gay with birds Or pastoral scenes with browsing herds Or ships at sea or mountains tall, As if they strive to please us all. And some display the loveliness Of pretty girls in filmy dress.

Others are made for business men With space a note or two to pen.
But all will serve the year long through
And all the self-same service do,
Which is to mark the day that's gone
and tell of those which follow on

Are You Asking These Questions About Saving Electricity?

IS IT STILL NECESSARY TO SAVE ELECTRICITY?

Yes. Not nearly enough saving is yet being made, especially in the home. Result, for some time past several large industries have had their power supply cut off for lengthy periods in the 24 hours.

IS IT NECESSARY TO SAVE ONLY AT CERTAIN HOURS?

No, it is vital to save at ALL hours. While electricity cannot be stored, water that generates it can be stored. The water storage for the five Hydro plants in the Niagara area is provided by the Great Lakes. This assures a continuous flow of water sufficient to enable these plants to go all out 24 hours a day-still there is not enough power. In 48 other Hydro generating stations throughout is not enough power. In we do not always characteristic too much electricity is demanded one day, the next day's power supply must suffer. This condition is aggravated by the abnormally low rain fall last Autumn.

MUST HOMES DO ALL THE SAVING?

Not by any means. ALL consumers must play their full part. Modified rationing has to some extent reduced the consumption of electricity in stores and by other commercial consumers, but still greater voluntary savings are urgently needed.

HOW CAN I SAVE MORE ELECTRICITY?

Don't leave lights burning in unoccupied offices. Turn idling motors off. Use range elements as short a time as possible. Turn off verandah and all other lights when not needed. Use electrically heated water sparingly. Do not use electric heaters or grates.

Avoid All Waste-SAVE ELECTRICITY
